

TYLENOL® Professional Dosing Information for Infants & Children

Note: If possible, use weight to dose, otherwise use age. To arrive at the correct dose, weigh your child before giving TYLENOL®. A healthcare professional should be consulted for dosing in children under the age of two years.

Feel better,
TYLENOL®
ACETAMINOPHEN

Always ask your healthcare professional which product is right for your child.

tsp = teaspoon*

Take every 4 hours as needed. Do not exceed more than 5 doses in 24 hours.

Important Instructions for Proper Use

- Read and follow the label instructions on all TYLENOL® products
 - Take every 4 hours as needed
 - Do not exceed more than 5 doses in 24 hours
- Do NOT use with any other product containing acetaminophen
- Keep all medicines out of the reach of children
- Do NOT administer adult medicines to children
- *Use only the dosing device that comes with a specific product
- Concentrated TYLENOL® Infants' Drops are more concentrated than Children's TYLENOL® Liquids. The Concentrated Infants' Drops have been specifically designed for use with enclosed dropper.
- Children's TYLENOL® Liquids are less concentrated than Concentrated TYLENOL® Infants' Drops. The Children's TYLENOL® Liquids have been specifically designed for use with the enclosed measuring cup.
- Children's TYLENOL® Meltaway Tablets are not the same concentration as Jr. Strength TYLENOL® Meltaway Tablets. Jr. TYLENOL® Meltaway Tablets contain 160mg of acetaminophen while Children's TYLENOL® Meltaway Tablets contain 80mg of acetaminophen.
- If you have any questions, contact your healthcare professional or call 1-877-895-3665
